

# BestCare®

PATIENTS, NOT PRISONERS®

LIGATURE-RESISTANT  
HEALTHCARE  
PLUMBING PRODUCTS

## SAFE & SECURE

Optimize patient safety, security and comfort with BestCare's ligature-resistant designs.

Whitehall's® BestCare products are designed to meet the unique application challenges faced by behavioral healthcare facilities seeking to maintain the balance between patient safety, security, and creating a non-institutional environment. All BestCare products are designed to ensure patient safety with aesthetics in mind.

**BestCare sinks** are seamlessly mounted to the wall and feature rounded edges to minimize ligature points. Sinks are available in stainless steel and solid surface options and are available to match BestCare ligature-resistant mirrors with an array of Corterra® colors.

**BestCare faucets** are designed with sloping surfaces to eliminate ligature points while also remaining vandal-resistant. Conical faucet heads, pneumatic operated push button, Piezo touch-button, and sensor activation options are available.

**BestCare toilets** provide the safety of stainless steel and are powder coated white to mitigate the institutional look of stainless steel that is commonly associated with correctional facilities.

**BestCare shower solutions** include conical showerheads, ADA compliant ligature-resistant tri-lever handles, and seamless panel covers.

The **BestCare ligature-resistant line** features a wide array of restroom accessories including auto-release towel and clothing hooks, toilet paper and paper towel holders, as well as grab bars with ligature-resistant closure plates.
